

Miniature Angle Beam Calibration Block (V2)

Specification:

ASTM-E-164 and U.S.A.F.T.O. 33 B-1-1 (6-1-84)
Metric version to BS 2704 (British Standards Institute)

Application: Angle Beam Calibration

Geometry: 1" thick, 1" radius opposite 2" radius with 5/64" diameter by 3/4" deep flat bottom target hole.

Metric (V2): 12.5mm or 20mm thick, 1" radius opposite 2" radius with 1.5mm or 5.0mm diameter flat bottom target hole.

Standard Materials:

- C1018 (Ni-plated)
- Aluminum 7075
- Stainless Steel 304
